

TREE CONSULTANT – CANDIDATE PROFILE

Background: Proven experience as an Arboriculturist or Landscape Architect

Qualifications: A qualified arborist (FARborA) with preferably an additional qualification in landscape design such as a member of the Landscape Institute (MLI), with own professional indemnity insurance.

Skills and personal attributes:

- Computer literate - in addition to use of email and Outlook, knowledge of Word and Excel and experience of QUBE or other property management software is an advantage;
- CAD and NBS experience a bonus but not essential;
- Excellent communication skills (written and verbal);
- An articulate and diplomatic communicator;
- A good grasp of the English language (spelling, grammar and spoken);
- Good at prioritising and effectively manage own workload and to multi-task;
- A positive, confident and outgoing personality;
- The ability to show initiative;
- Car owner essential

What you will do:

- advise on tree protection and preservation orders in planning applications
- manage trees in parks, on housing estates and at the roadside
- organise tree planting schemes
- supervise tree care and tree planting contracts on site
- give advice on arboriculture and woodlands to freehold residents
- assess tree damage after storms
- train new staff and volunteers

Should reside within easy commuting distance of Dulwich, SE London.
